YCP Holdings (Global) Limited
(Listed : 9257, Growth Market,
Tokyo Stock Exchange)

Headquarters

20 Collyer Quay #12-06, 20 Collyer Quay,
Singapore

How Will You Navigate The Challenges in Today's Logistics Landscape?

The logistics industry faces constant pressure to adapt to shifting trade flows, rising service expectations, and rapid technological change. Challenges like tariffs, cost volatility, and evolving customer demands force both logistics providers and shipper to rethink how they design networks, deploy capital and enhance processes.

- How are you evolving your logistics & network strategy to drive growth and resilience?
- How do you forecast demand & plan capacity across your logistics & supply chain operations?
- Which assets are not fully utilized, and what actions are you taking to improve performance?
- How can you deploy capital to consolidate and scale your logistics network effectively?
- What digital tools & systems can help improve visibility & execution across your network?

Our Capabilities in the Logistics Space

**Distribution & Fulfilment
Strategy: Enabling Shippers to
Deliver Speed and Reliability**

**Strategy
& Network
Design**

Designing optimal logistics networks aligned to demand patterns, service levels, and cost-to-serve objectives.

**Planning &
Forecasting**

Improving demand forecasting, capacity planning, and inventory decisions to balance service and efficiency.

**Facility
Design**

Designing distribution centers and fulfillment facilities optimized for throughput, automation, and future scalability.

Our Capabilities in the **Logistics Space**

Distribution & Fulfilment
Strategy: Enabling Shippers
to Deliver Speed and
Reliability

Digital
Transformation

Implementing planning systems, analytics, and control towers to enable data-driven logistics decisions.

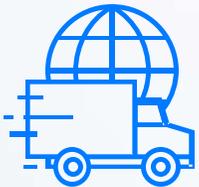

Process
Excellence

Supporting target identification, due diligence, bid advisory, deal structuring, and strategic partnerships to accelerate scale and capabilities.

Our Capabilities in the **Logistics Space**

**Supply-side Growth Strategy:
Enabling Logistics Organizations
to Expand & Consolidate**

Digital Transformation

Enabling logistics operators to deploy technology, automation, and data platforms to improve asset utilization and service delivery.

Operational Excellence

Improving productivity, cost efficiency, and service quality through process redesign, performance management, and best practices.

I would like to express my sincere gratitude to the YCP team. I am extremely pleased with how they executed our project. They got their hands dirty and went the extra mile to work on key specified deliverables that proved to show high-impact towards our business objectives. I was profoundly impressed with how YCP managed client relationships. The team displayed high professionalism and was able to listen thoroughly. Through their recommendations, we were able to identify the future business direction in the expansion of our Indonesia logistics business footprint.
